SUMMARY

Aspiring Software Engineer with a strong foundation in **Java, Object-Oriented Programming (OOP), Data Structures & Algorithms, Database Management Systems (DBMS), and Software Development Lifecycle (SDLC)**. Hands-on experience in designing, developing, testing, maintaining, and optimizing software applications using **Java, Spring Boot, Hibernate, and MySQL**. Passionate about solving engineering problems through analytical thinking, writing clean and maintainable applications, and collaborating effectively in Agile teams to deliver high-quality software.

PROFESSIONAL EXPERIENCE

Java Full Stack Development Trainee

Jul 2025 – Present

Destination Career Pvt. Ltd.

Bengaluru, India

- Developed scalable backend applications using **Java, Spring Boot, and REST APIs**
- Designed and optimized **MySQL** databases with CRUD operations, joins, and query tuning
- Built responsive user interfaces using **React.js, HTML, CSS, and JavaScript**
- Integrated frontend and backend services through efficient **client-server communication**
- Applied **LLMs and RAG concepts** to develop AI-powered application features
- Debugged, tested, and enhanced full-stack applications to improve performance and user experience

Java developer Intern

Jan 2024 – Apr 2024

Next Innovate Tech Solution Pvt. Ltd., India [🔗](#)

Motihari, India

- Completed structured training in **Core Java** and **OOP** concepts, focusing on clean and maintainable code.
- Developed small Java-based modules as per requirements, strengthening logic building and problem-solving skills.
- Gained hands-on experience with basic **SQL** queries for structured data handling.

SKILLS

- Programming Languages:** Java, JavaScript, Python
- Backend Development:** Spring Boot, Hibernate, JPA, JDBC, RESTful APIs, Microservices
- Databases:** MySQL, SQL, PostgreSQL
- Web Technologies:** HTML, CSS, JavaScript, React.js, Tailwind CSS, Bootstrap
- Core CS Fundamentals:** Data Structures & Algorithms, OOP, DBMS, Operating Systems
- Tools & Platforms:** AWS, Git, Postman, IntelliJ IDEA, Eclipse, VS Code, Kafka, Docker
- Software Engineering:** SDLC, Code Optimization, Software Development, Debugging, Testing

EDUCATION

- B. Tech in Computer Science & Engineering, Bihar Engineering University, Patna (**CGPA: 8.02 / 10**) 2020-2024
- Intermediate of Science (PCM), M.K. College, Sitamarhi (**In top 20 percentile**) 2016-2018
- Matriculation, Shri Jageshwer High School, Sitamarhi 2015-2016

PROJECTS

[Client Management System](#) (Java, Spring Boot, MySQL, REST APIs, React, Bootstrap)

Mar-2026

- Developed full-stack CRUD operations for efficient employee data management.
- Created REST APIs integrated with MySQL using Spring Data JPA.
- Built responsive user interfaces using React and Bootstrap components.

[Smart Email Assistance](#) (AI-based Application) (Java, Spring Boot, REST APIs, React, JavaScript)

Feb - 2026

- Designed backend REST APIs for managing structured email data efficiently
- Developed frontend interfaces ensuring smooth client-server communication workflows.
- Implemented AI integration using Gemini API to enhance application capabilities and user

[Netflix Gemini](#) (AI-based Application) (HTML5, CSS3, JavaScript, React.js, Tailwind CSS, API Integration)

Nov -2025

- Built dynamic frontend using React.js with API-driven architecture
- Integrated external APIs for intelligent recommendations
- Improved performance and user experience using state management

KEY ACCOMPLISHMENTS

- Solved **300+** DSA problems [🔗](#) • 200+ SQL challenges across coding platforms [🔗](#)

CERTIFICATIONS

PCAP – Programming Essentials in Python (Cisco) [🔗](#) CCNAv7: Introduction to Networks (Cisco) [🔗](#)

LANGUAGES

English – Fluent | Hindi – Native | Urdu – Proficient
